THE NEW JERSEY STATE HOUSE

Tour New Jersey's most historic public building.

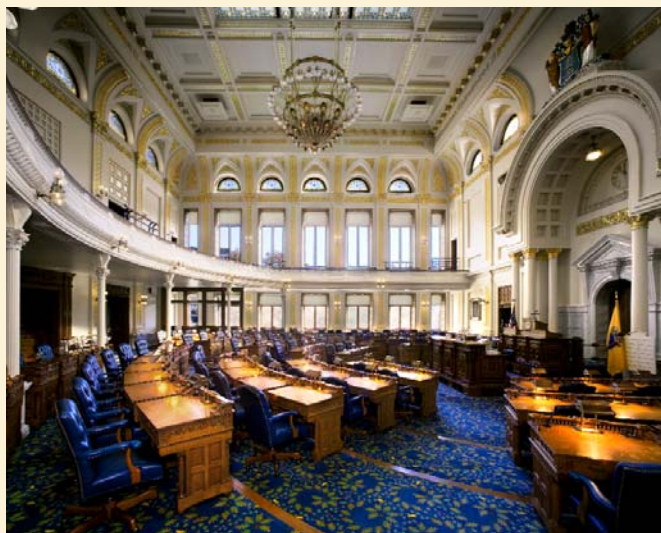

For more than two hundred years, the New Jersey State House has proudly served as the seat of our State government. It remains home to the State Legislature, the Governor's Office and other Executive branch offices.

The State House stands as an impressive historical monument, rich in tradition and style. In fact, part of the original 1792 structure still exists, making the New Jersey state capitol building one of the oldest in continuous use.

In 1987, a large renovation restored the legislative portion of the building and added office space. Craftspeople, specializing in areas such as stained glass restoration, gilding, millworking and decorative molding, painstakingly recreated original details of the chambers. A public-private partnership allowed for the famous golden dome and rotunda to be refurbished.

Today, the New Jersey State House stands as a symbol of democracy where all visitors are welcome to walk in the footsteps of Abraham Lincoln and Woodrow Wilson.

As home of our state democratic process, the State House continues to serve the citizens of New Jersey as they come to participate in the shaping of public policy.

View the magnificently restored legislative chambers, artwork and furnishings. Informative guides will tell you about today's lawmaking process as well as New Jersey's colorful and distinguished past.
